

1. Find the area of the following shapes:

/ 8

A)

B)

2. Mark is building a playhouse for his kids. The front wall measures 8ft by 8ft. He then cut out a rectangular doorway that was 3ft by 6ft and two circular windows that had a diameter of 1.5ft. To finish the playhouse Mark will put on siding. How much siding in sq. ft. will he need to cover the front wall?
